Pipette Failures (required)

If my pipette(s) fail the Easy Check Service, please enroll my pipettes(s) in Level 1 PIPETMAN Service and Calibration. (Level 1 service collects two weighings at the low volume and two weighings at the high volume. It also includes repair, adjustment, a calibration label, and detailed calibration certificate.) [] Yes [] Please call me

Select a Service Type

PIPETMAN Easy Check: This service type provides you with the opportunity to check your pipettes' performance in between calibration services. This pipette service includes internal and external cleaning, visual and functional inspection, leak test, gravimetric check and a detailed report. Most brands of single channel pipettes will also receive free replacement of the seal and o-ring and a free tip holder if evaluation shows it needs to be replaced, all other parts are extra.

Table with 3 columns: Service Type, List Price, QTY. Rows: Easy Check (\$25), Easy Check Multi-Channel (One Channel) (\$36)

PIPETMAN Service and Calibration: Most brands of single channel pipettes will receive a free seal and o-ring with each service visit and a free tip holder if evaluation shows it needs to be replaced, all other parts are extra. Gilson uses new, original manufacturer parts for repair. All service levels listed below include a full internal and external cleaning and decontamination, adjustment and calibration, visual and functional inspection, and repair. You will also receive a calibration label and a detailed calibration certificate for each pipette.

Table with 8 columns: Service Type, As Found Data (Volume Settings, Weighings), As Left Data (Volume Settings, Weighings), List Price (Single Channel, QTY, Multichannel, QTY). Row: Level 1 (N/A, N/A, 2, 2, \$33, QTY, \$52, QTY)
